

## New Session Beginning

**We open the book. Its pages are blank. We are going to put words on them ourselves. The book is called opportunity and its first chapter is a new academic session.**

The academic session at ASPAM started on 3rd April 2019. A lot of changes have been envisaged with the sole aim of providing the latest pedagogical practices to our dear students.

This session onwards, we have started our Pre-Primary wing. ECE curriculum and its paraphernalia have been developed by the R&D Team of the school and are based on the best practices of Maria Montessori, Howard Gardner and Jean Piaget. Montessori Lab and Learning Corridors form an integral part of ECE.

**Value Labs** – One-of-its-kind facilities in NCR region will help the students in arriving at decisions that will be morally and ethically correct, thereby giving them an understanding of techniques of developing a good sense of judgement.

**Personalized Lab**– It is a unique initiative of ASPAM. It is a scholastic aid for students of grades III to VIII that will help them in getting a deeper and better understanding of concepts in all major subjects.

Facility of meals across allgrades is yet another introduction to the system in this session. Nutritious meals are hygienically prepared and served to students.

The school is growing and so is the happiness quotient and joyful learning. I am sure these introductions will go a long way in making learning an enjoyable experience at ASPAM. These are only a few of the many new facilities that have been introduced and as the session goes by, more features will be added and we will most certainly share those add-ons with you.

We look forward to an engaging and fruitful session. Happy beginning to a happy year ahead!

God bless and best wishes to all!
